## EXPERIENCE

### SYSTEMS ADMINISTRATOR, NEW York, NY

Wollmuth, Maher & Deutsch LLP, October 2020–Present

- Oversaw testing and deployment of new firm-wide Legal Management System for over 70 attorneys
- Led initiative for small-group learning sessions to collect staff pain points with tech. Coordinated with consultants and freelance developers to build out in-house solutions based on feedback.
- Designed and implemented Python tools to automate several Firm processes, with specific focus on eDiscovery workflows.

### FOUNDER / CTO, Paris

Delph, February 2022–February 2023

- Designed and built the 1st European platform using NFTs for fundraising. Built using Next.JS, Vercel and Infura.io.
- Released world 1st collection of NFTs by a candidate for a presidential election (Gaspard Koenig).
- Sold 150 NFTs in 36h to over 110 unique buyers, raising over \$2500.
- Released collections to raise over \$1000 in support of Ukrainian NGOs focusing on children and medical supplies.

### FOUNDER / CTO, Ann Arbor

Mile Out, October 2019–March 2020

- Designed and built livestreaming website showing live views of the wait times of the biggest bars in Ann Arbor, Michigan.
- Website passed 60,000 views and 1300 unique viewers by January 2020. Averaged 1000 users/night when active (only Thu., Fri. and Sat. nights).
- Website built using React, Firebase and AWS Lambdas

### SOFTWARE ENGINEERING INTERN, PARIS

Zenly, June 2019–August 2019

- Designed new object shaders in C for the Zenly map
- Deployed sharing features in the iOS and Android versions of Zenly to allow for sharing through GroupMe
- Prototyped new feature using Sketch and ProtoPie. Pitched the feature to C-Suite members.
